

Flooring Supplies CMC – Commercial Maintenance Cleaner Instructions, supplied to you by Slip Proof NZ Ltd

**Keeping your anti-slip floor clean & at the very same time
maintaining the anti-slip effect**

The Slip Proof NZ CMC cleaning product is specially manufactured with a blend of surfactants to remove grease, fats, oils & soaps. It also contains a proportion of the active anti-slip ingredient. Using this cleaner approx every 6 months, or as required, to clean the floor will maintain & increase the life of the Slip Proof NZ anti-slip treatment. Use of other floor cleaners may result in the floor becoming slippery again due to some of their ingredients, i.e mineral oils.

DIRECTIONS:

- 1) Mix 1 part of CMC with 10 parts of water
- 2) Scrub the mixed solution over the floor ensuring you scrub well on heavy foot traffic areas
- 3) Mop or hose the area to remove

5 Litres of CMC cleaner when diluted with 10 parts of water will clean approx. 500 square metres.
